WEDIGITS

FOR TECHNOLOGY SERVICES

WE TECH.. YOU GROW

Message from CEO

At **Wedigits**, partnership is at the heart of everything we do. Our team of experienced innovators and technologists blends creativity, technical expertise, and dedication, treating every project as if it were our own.

We work closely with our partners to deliver reliable, high-quality solutions that drive meaningful digital transformation and create exceptional digital experiences — together.

Mohamed Akl

ABOUT US

At **Wedigits**, we empower businesses to grow, transform, and stand out through innovative digital solutions. We combine deep technical expertise with a strong understanding of business challenges, enabling us to deliver smart, scalable, and high-quality products that make a real impact.

From mobile applications and websites to custom software platforms and automation systems, we design and build solutions that are efficient, intuitive, and aligned with your strategic goals.

Our approach is simple:
Listen, **Understand**, **Build** with purpose and **Deliver** with **excellence**.

MISSION

To foster long-term partnerships within the community by delivering exceptional digital solutions that drive growth, streamline operations, and provide seamless, valuable experiences for all.

VISION

To shape a future where technology empowers every business to operate smarter, innovate faster, and create lasting value for the communities they serve.

SOURA FORUM

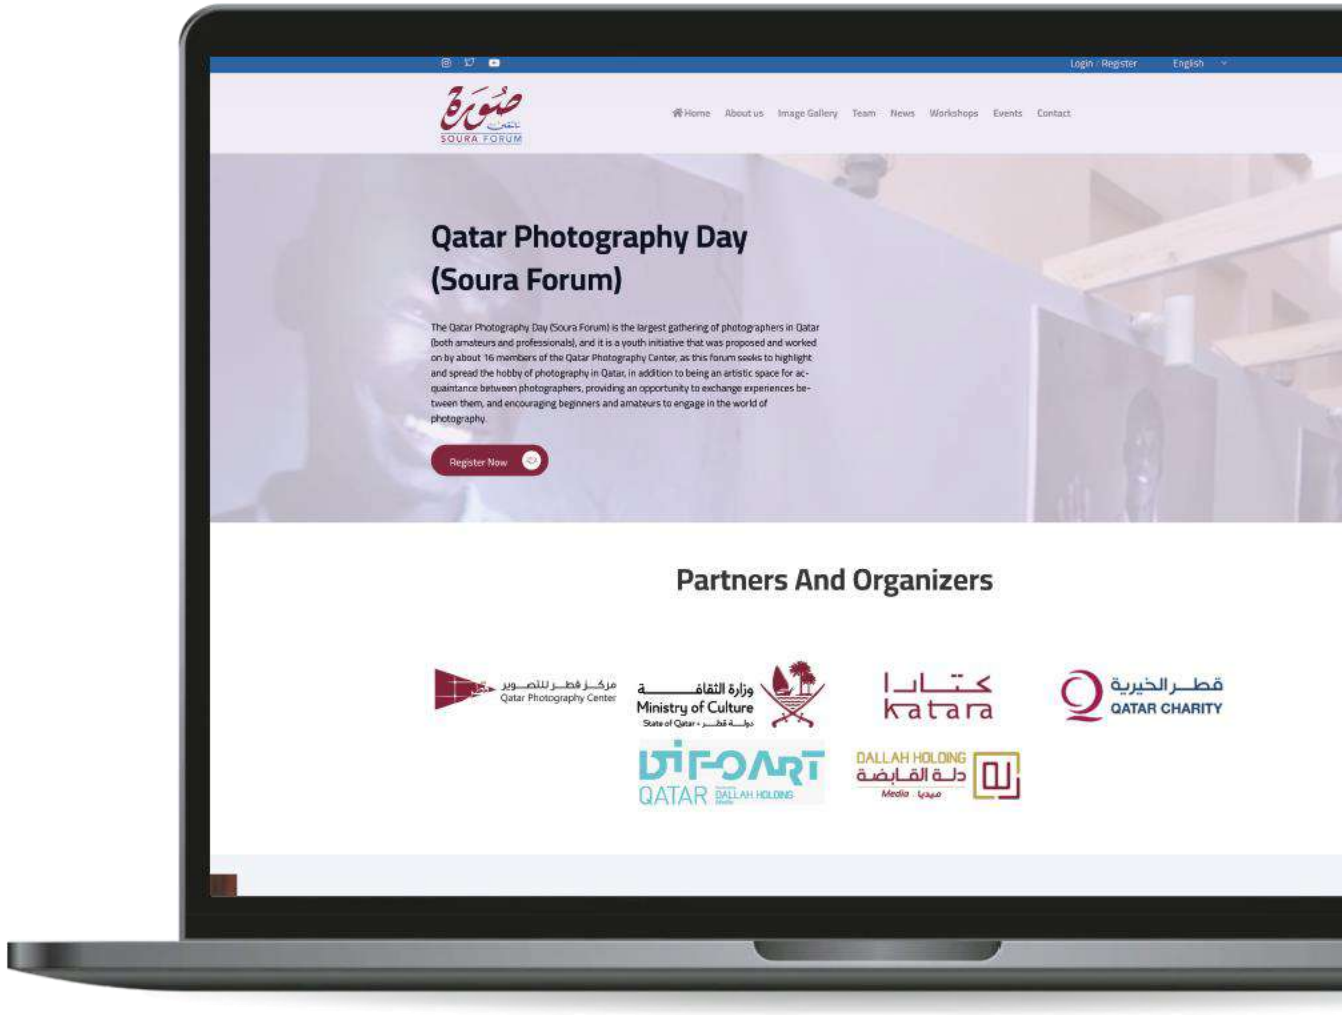
https://souraforum.com/

Soura Forum's website is an all-in-one platform for the Qatar Photography Center, designed to provide comprehensive information about the forum while streamlining event participation. The platform allows users to register for workshops, manage attendance, and explore highlights from past events, creating an engaging and organized experience for both participants and organizers.

With a user-friendly interface and responsive design, Soura ensures smooth navigation, easy access to schedules, and seamless registration for all activities, helping the Qatar Photography Center engage its community effectively.



العامة للتكافل
General Takaful
تأمين برؤية إسلامية
Insurance with an Islamic Vision

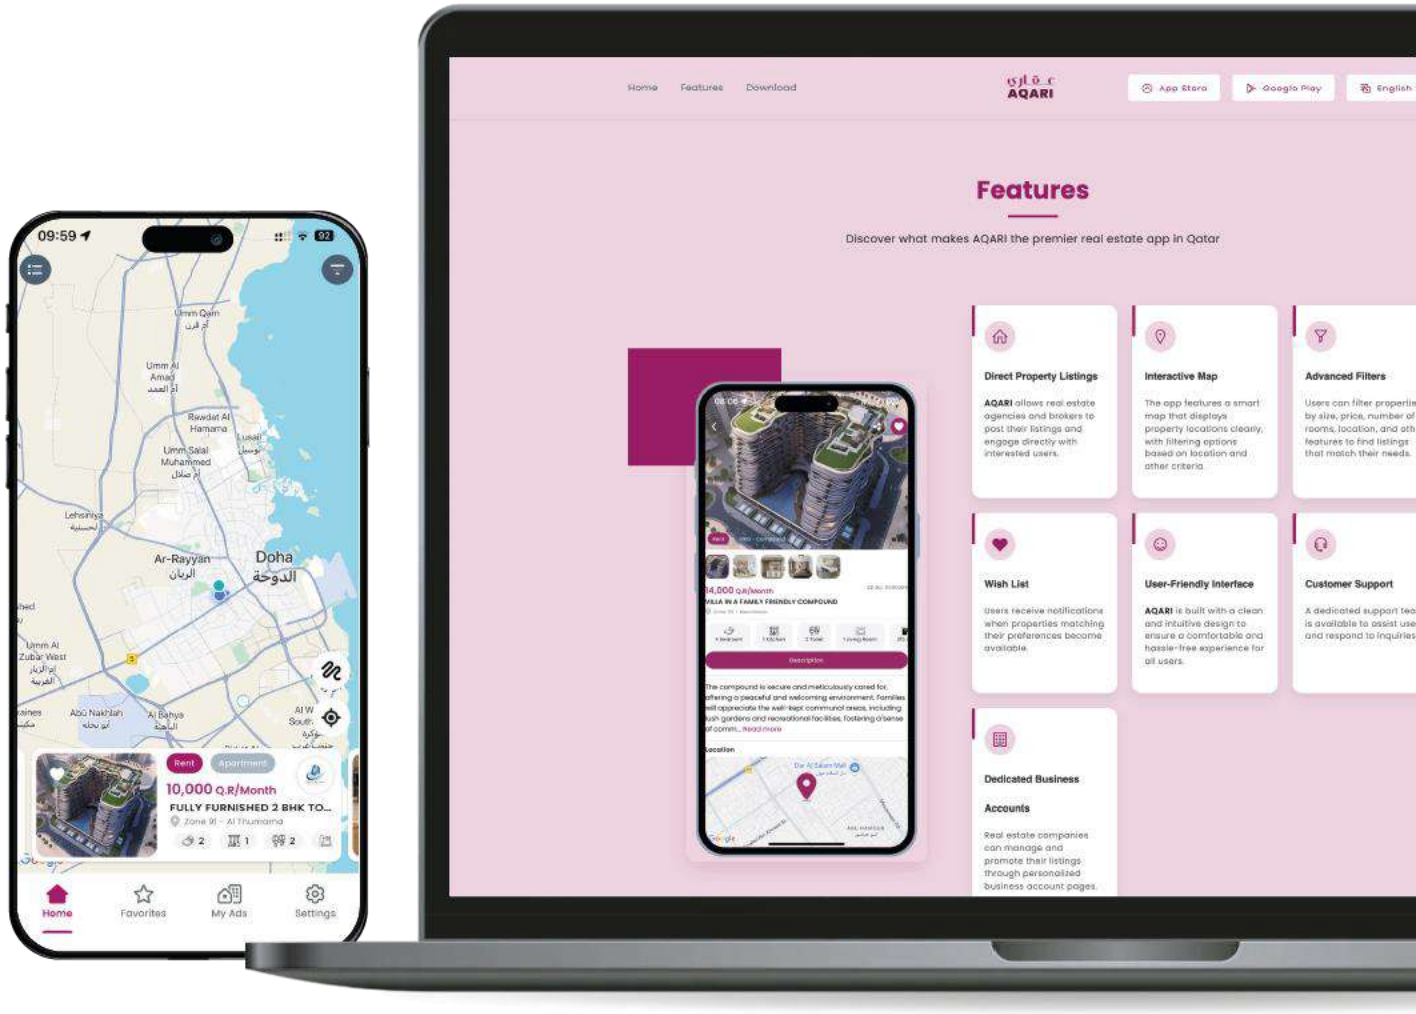
https://www.g-takaful.net/

We developed a smart WhatsApp Business solution for General Takaful to streamline customer interactions across multiple insurance services, including car, travel, general, and medical insurance. The platform provides users with all necessary information via WhatsApp before transferring them to an agent, ensuring a smooth and informed customer experience.
In addition, we unified multiple WhatsApp numbers into a single contact point, simplifying communication for both users and company staff. Advanced features allow conversation assignment, reporting, and targeted broadcasts, enabling efficient management of customer interactions and improved operational workflows

عقاري
AQARI

https://aqari.qa/

Aqari is a real estate advertising app developed specifically for the Qatari market, offering users a seamless way to list, search, and explore properties with full transparency and ease. Designed to meet the growing demands of Qatar's real estate sector, Aqari combines innovation and practicality to connect property seekers with real estate agencies and individual advertisers.
With its advanced search tools, interactive map, and intuitive interface, Aqari provides a smooth, efficient, and trustworthy experience — making it the preferred choice for real estate professionals and individuals alike.

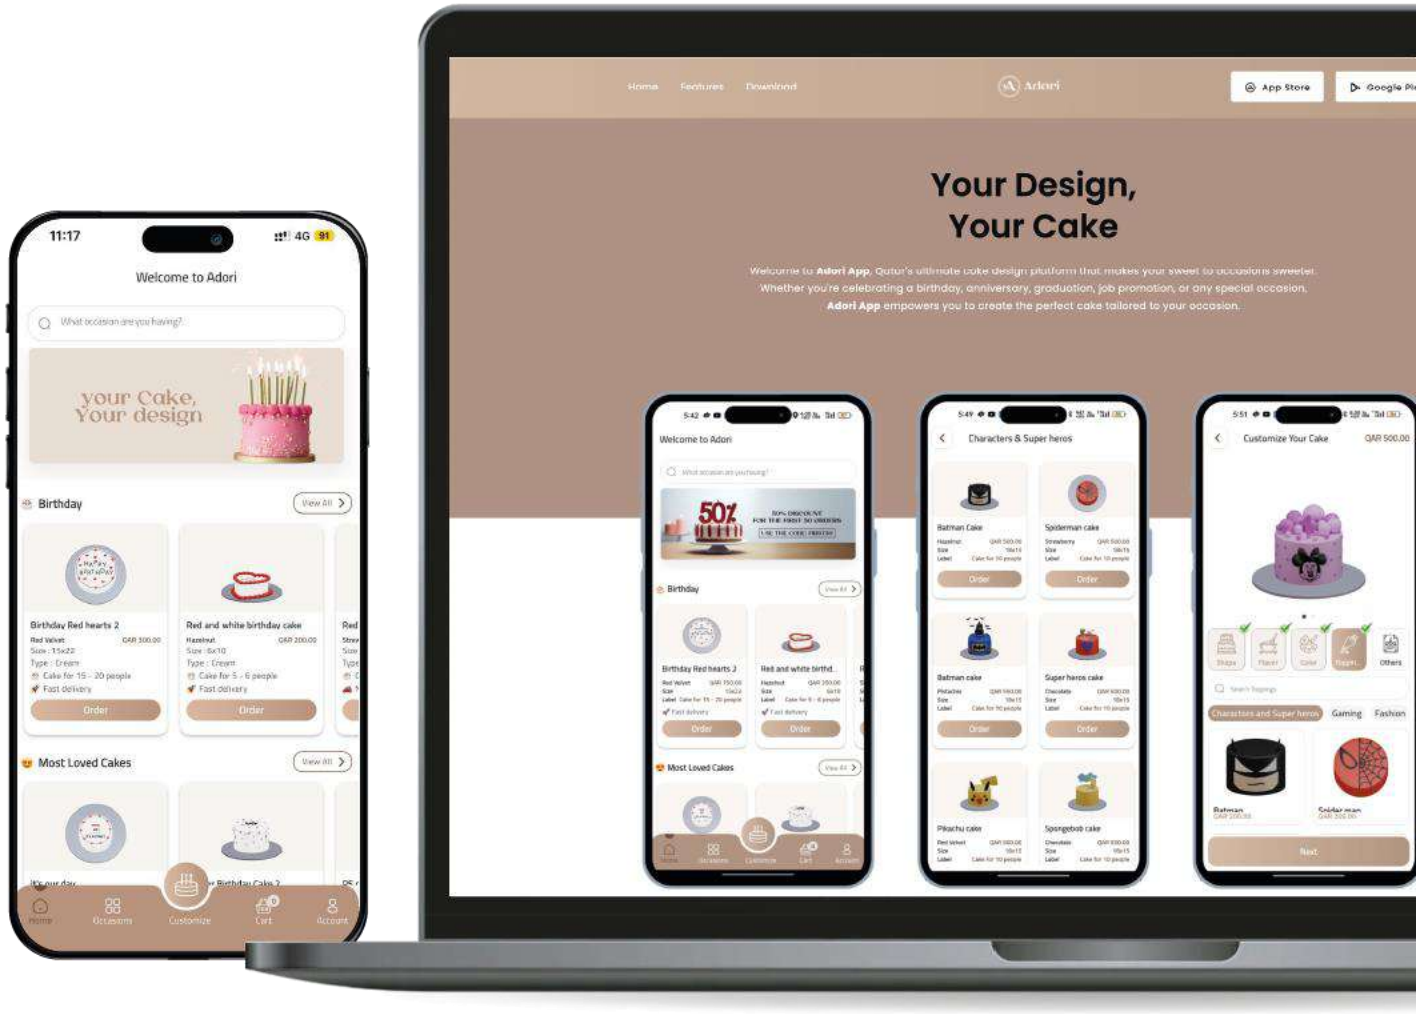


Adori

https://adoricakes.com/

Adori App is Qatar's ultimate cake design platform, created to make every celebration sweeter. Whether it's a birthday, anniversary, graduation, or any special occasion, Adori empowers users to custom design their dream cakes with ease.

Through a smooth and modern mobile experience, users can personalize every detail — from shape and size to flavor and decoration — or choose from a curated selection of professionally crafted cakes. Adori combines technology, creativity, and convenience to turn every celebration into a personalized masterpiece.

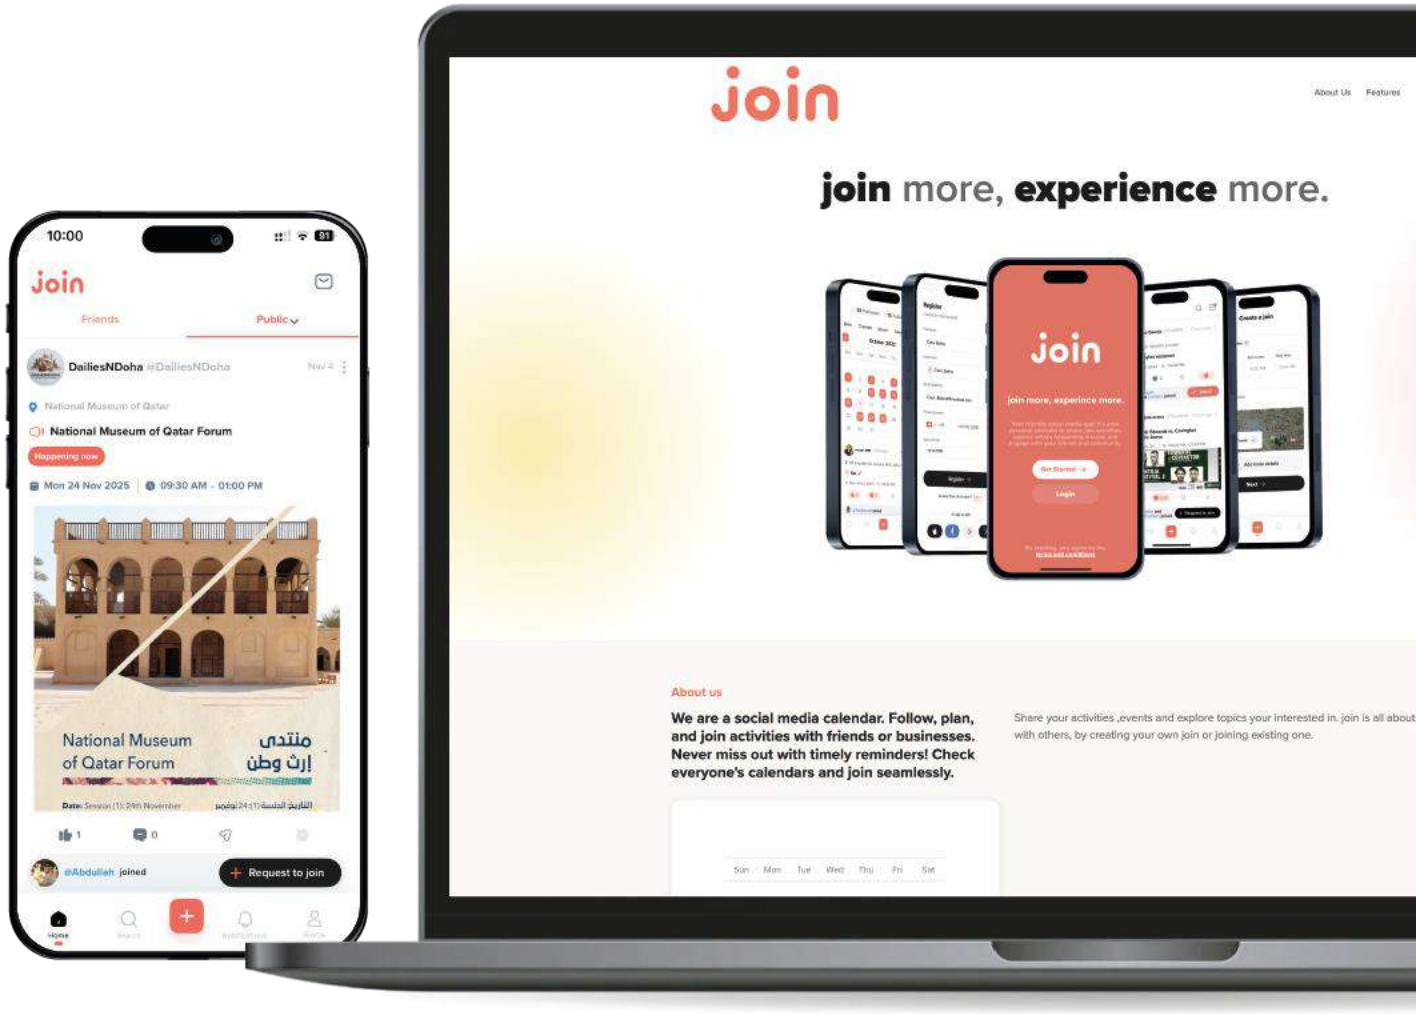


join

https://joinapplication.com/

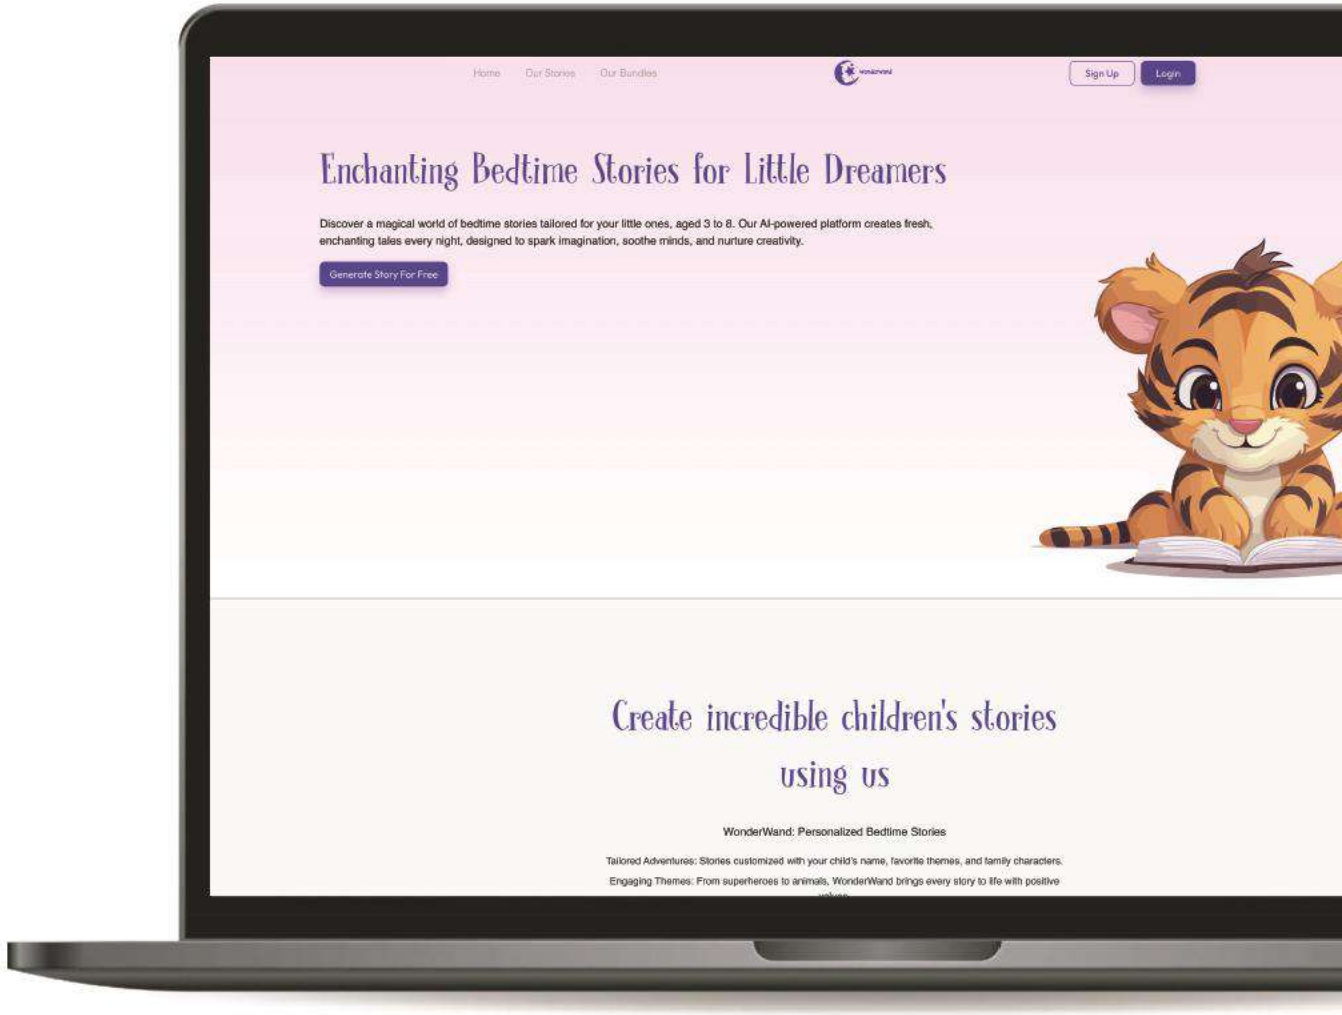
Join is a social media calendar app designed to bring people together through shared activities and events. Whether it's planning a weekend meetup, joining a local fitness session, or organizing business events, Join makes it easy to follow, plan, and connect with others seamlessly.

With an intuitive interface, users can explore upcoming events, share their own activities, and view their friends' or favorite businesses' schedules — all in one place. Timely reminders and smart notifications ensure you never miss out on what matters most.



https://wonderwand.ai/

WonderWand is an AI-powered platform that creates personalized bedtime stories for children aged 3 to 8. Designed to spark imagination, soothe minds, and nurture creativity, the platform generates fresh, enchanting tales every night, tailored with your child's name, favorite themes, and family characters.
With WonderWand, parents can provide their little dreamers with a magical bedtime experience anytime, on any device. The platform combines technology and storytelling to make bedtime routines more engaging, imaginative, and peaceful.



TESTIMONY
from customers

Wedigits delivered outstanding digital solutions, creating a modern website and brand identity that perfectly reflects our vision. Their expertise and dedication make them a trusted partner for any business.

Tariq Al Halees

Founder

Wedigits delivered an outstanding website for IECO Group, combining modern design with seamless functionality. Their team's expertise, attention to detail, and collaborative approach made the process smooth, and the result perfectly reflects our brand and vision.

Hussam Naser

General Manager

Working with **Wedigits** has been a defining part of our mobile app journey with Join. Their expertise, structured development approach, and exceptional communication ensured every decision aligned with our vision. The team became a true extension of ours, delivering a polished, user-friendly platform that exceeded expectations.

Mohammed Al Mansoori

Founder

Wedigits brought our vision for the Adori app to life with creativity, precision, and technical excellence. Their team worked closely with us throughout the process, ensuring a seamless, user-friendly experience. We truly value their partnership and highly recommend them for any digital project.

Faissal Al Haythami

Founder

OUR TEAM

Our team combines creativity, technical expertise, and dedication, collaborating closely with partners to deliver high-quality digital solutions and exceptional experiences. We treat every project and product as if it were our own, bringing over **20 years** of cumulative experience. With a large team of talented developers, designers, and consultants, we have the skills and capacity to deliver innovative solutions across every stage of digital product development.
